

To Whom it May Concern,

It is my pleasure to recommend Maun-Lemke Speaking & Consulting as your next healthcare consultant. For many years Maun-Lemke has worked with our healthcare organization on workforce management and census development strategies.

Recently, our organization completed a 16-week workforce management course with Maun-Lemke. The 16-week course provided several process improvement tools that helped our organization become more efficient. Our intent as an organization was to reduce staffing agency dollars while at the same time retaining new hires. Towards the end of the 16-week program, we were able to reduce our staffing agency costs by 75%. In addition, two of our locations became agency free.

I am confident that Maun-Lemke will help improve your organization's workforce and reduce your staffing agency dollars.

Sincerely
Tyler Juilfs
