

*Committed. Caring. Responsive.*

November 14, 2019

To whom it may concern,

I have had the distinct pleasure of working with Clint Maun and his team consistently over the past 8 years. Clint in particular has always been very astute and is always aware of not only the current state of health care but has an uncanny knack, through preparation and attention to detail, that guides us in strategies for the future in addition to pragmatic approaches to current challenges. He and his team stay engaged and are very timeline driven which keeps people on task and always delivers product as promised and on time.

I would be happy to discuss specifics about our engagement with Clint which has been a living engagement, always changing and morphing to address the barriers both at the C level and throughout our organization. His style is also one that keeps people engaged and therefore leads to better outcomes regardless of the issue. Clint has worked with CCR on revenue issues, retention issues and issues that encourage and motivate the idea of agility in a profession that changes rapidly, whether it be payment, regulatory or organizationally driven.

I am pleased to recommend Clint and the entire team at Maun-Lemke for their service having lived it. Clint has been and will continue to be a part of our strategy at CCR.

Sincerely

David W. Tucker
